Thiloshna Peela

Frontend and Threejs developer@ PlugXR

Visakhapatnam, Andhra Pradesh, India

Summary

As a developer intern at PlugXR, a leading platform for creating augmented reality experiences, I apply my problem solving, web content writing, and HTML skills to create engaging and immersive content for various clients and projects. I am currently pursuing a Btech in computer science engineering from Dr. Lankapalli Bullayya College of Engineering for Women, where I have learned the fundamentals of programming, data structures, algorithms, and software engineering. I have also completed an INTER MPC degree from Sri Chaitanya College of Education, where I developed my interest in mathematics, physics, and chemistry. I am passionate about learning new technologies and exploring the possibilities of augmented reality for education, entertainment, and social good. I am eager to contribute to PlugXR's mission of democratizing AR creation and empowering users to unleash their creativity and innovation.

Experience

PlugXR

Threejs developer

December 2023 - Present (7 months)

Hyderabad, Telangana, India

Education

Dr. Lankapalli Bullayya College of Engineering for Women
